Warranty Terms & Conditions

The Solax ESS-TRENE Energy Storage system are manufactured by SolaX Power Network Technology (Zhejiang) Co., Ltd. The company (hereinafter referred to as SolaX) provides this Limited Warranty to the customers of Products (Customer), who purchased from SolaX or its authorized distributors (Distributors), and have them installed, energized, commissioned, registered and activated by authorized installers on or after 2nd Jan 2025.

This Limited Warranty takes effect on 2nd Jan 2025 and shall remain valid unless a newer limited warranty is subsequently posted which applies to covered Product's Warranty Start Date.

1. Warranty Products

This warranty applies exclusively to ESS-TRENE of Solax manufactured and supplied either directly by Solax or through authorized partners (distributors) of Solax. All external and ancillary parts and units (eg. Monitoring/Comm devices, batteries, hardware/software controllers etc) installed with inverters by third-parties are excluded from the warranty.

2. Warranty Period

Solax warrants that, subject to the exclusions and limitations set out below, the Solax ESS-TRENE Energy Storage system, comes with the Manufacturer's warranty which includes

1).5 years of product warranty: Solax warrants that the X3-TRENE PCS will be free of defects caused by improper workmanship or defective materials.

Note:

If an inverter connected to Solax cloud and generation data been successfully uploaded to Solax server, the inverter warranty will be freely upgraded to 10 years standard warranty ;

2).10 years of Performance warranty for Battery and T-BAT BMS.

3) 5 years of product warranty for Parallel Cabinet PCAB series.

4).2 years limited accessories warranty for UPS, EMS, Display screen, Switch, air cooling system, dehumidifier, and liquid cooling system.

5).5 years of product warranty for other parts.

Note:

Warranty Period starting from the earlier one of the following two dates:

- The date on which the product was first installed;
- 9 months after the date of production;

3. Performance Warranty of battery

Solax warrants and represents that the product retains at least 70% of Nominal Energy for either 120 months after the commissioning date or for a minimum Energy Throughput, whichever comes first, when the battery system is operated under a normal use followed by the specification and the manual provided by Solax. The product DoD is 95% and during warranty period, it can safely operate at the range of this DoD.

The energy throughput is within the value indicated on the table below:

Product	Nominal Energy of Battery	Energy Throughput
TRENE-P100B215	215 kwh	1389.1 Mwh
TRENE-P65B261	261 kwh	1686.1 Mwh
TRENE-P125B261	261 kwh	1686.1 Mwh
TRENE-P500B1044L	1044 kwh	6744.2 Mwh

The term “Nominal Energy” herein means the initially rated capacity of the product as indicated on the label of the products. The precondition warranty shall be as follows:

For Capacity measurement conditions: 95% DOD, Initial battery temperature from BMS: 25-30°C, charge/discharge rate of 0.5 C.

4. Extend additional batteries

It is suggested to add extra batteries to the existing system within 1 year after the installation. Before extending the system, electrician shall follow every step on the Battery Extension SOP provided by Solax Power to ensure the batteries are at the same voltage level. And the warranty information can be added on the warranty registration session on the website.

5. Warranty Claim Procedure

For the claimant, please contact the local distributor where the product was purchased, or the installer who installed the inverter, they will contact with Solax if necessary. If the claimant was unable to obtain service from them, or was NOT satisfied with their service, the claimant can escalate their service request by contacting with Solax service team (service.global@solaxpower.com) or contacting via Solax official website <https://www.solaxpower.com/contact/> accordingly.

Please note, in order to deliver a friendly and timely service, Solax cooperates with several distributors and installers all over the world. As such, please treat them as the default service channel of Solax and use these service channels to make your warranty claim; Solax will support and audit service channels to ensure good service to customers.

For a warranty claim, the following information needs to be provided:

- 1). Contact information of claimant, including name of the person, phone number, email address and shipment address.
- 2). Information regarding all defective product(s), including product(s) model(s), serial number(s), installation date and failure date. Any claims shall be made within one month of failure date to be considered under the warranty.
- 3). Installation information, including brand, model, and number of PV panels; if the defective product is an energy storage system, the brand and model of batteries are also needed.
- 4). Error message on LCD screen (if applicable) and additional information regarding the fault/error.

5). Description of actions taken before the failure and detailed information of previous claims (if applicable)

Solax may arrange an on-site inspection to find out the root of the faults. The claimant is responsible for granting access, making time, and ensuring the safety of the inspection by a technician from Solax or an authorized third-party company. Solax reserves the right not to enter the site should the Solax technician consider it unsafe to do so.

While we processing the replacement action, the following information needs to be provided:

- A completed warranty claim form (Solax RMA form);
- A copy of your original invoice, receipt, commissioning report, or any other document which can prove the purchase of the inverter or accessory and/or extended warranty, or the date of installation;

Solax reserves the right to reject the warranty claim:

- If you fail to provide the above-mentioned information;
- If the product (Solax inverter or/and accessory) is replaced without the prior consent of Solax;
- If the defect that is claimed is not caused by defective materials or workmanship;

Solax will seek reimbursement of all costs (labour, travel, delivery, and/or replacement units that have been sent) incurred from the claimant if the product of replacement is found to be free from defects in materials or workmanship, or the product is found not to be covered by this Limited Warranty.

If the faulty device is not returned to Solax within 6 weeks after replacement, our company reserves the right to charge based on the current market selling price of the machine.

6. Warranty Terms

Solax warrants all goods to be free from defects in materials or workmanship under normal use, and in the event of the occurrence of a defect for which Solax is responsible during the agreed warranty period, Solax will, at its discretion:

- Fix the problem by updating the software or change the configurations; or
- Repair the defect on the premises of Solax or on the customer's site; or
- Provide an equivalent substitute (repaired, refurbished, or upgraded model with at least equivalent functions) or a new device, For every single inverter exchange case, the claimant must gather the necessary information and send the RMA report (by following Solax's RMA template) to Solax to confirm the RMA request, prior to the inverter being exchanged;
- If it is proven that the problem was caused by faulty installation, Solax reserves the right to contact the original installer and request that they provide a solution to fix the issue before Solax's intervention and may charge the subsequent cost to the original installer if they fail to provide a proper solution to fix this issue.

7. Transportations costs

Unless there are some unique agreements signed between Solax and the customers (the distributors), the warranty covers only the cost of materials that makes the products functional.

In some cases, the claimant needs to organize the return of the allegedly defective product to Solax and should confirm with Solax for the shipment schedule in advance. As products need to be packaged in a reasonable condition, Solax suggests using packaging material that is the same size as the product package

at the time of purchase. If the allegedly defective product is no damage found after checking the returned product, Solax will invoice the claimant for the replacement unit in addition to the delivery and associated service charges.

8. Warranty Registration

The direct customers who have purchased Solax products (Solax inverters and EV Chargers and Batteries) shall register these products and upload the information within 90 days from the date of commissioning of the products.(register online: <https://www.eu.solaxcloud.com/user-center/>). If a customer fails to register a Solax product, the product warranty period will be obtained standard warranty, and counted automatically after the manufacturing date.

9. Warranty Extension

The ESS-TRENE and the accessories support extended warranty ,A warranty extension can be purchased from Solax's authorized distributors for the mentioned of products no later than 6 months after its first installation date (or 12 months after production date), or end users can purchase via Solax cloud website after finish online monitoring registration. The new warranty period of the units will automatically include the extended warranty and the remaining warranty. Solax has the rights to increase the payment standard for warranty extension or reject any application received at a later point of time.

Note: The warranty extension covers only the cost of hardware material required to get the device functioning again. It excludes any inbound/outbound transportation costs or labor costs of replacement/on-site service.

10. Warranty Limitations

Conditions for the validity of the warranty: You are required to complete each annual or semi-annual maintenance as per the requirements and keep the signed version of the maintenance report.

Warranty invalid situation: If the system fails to complete the required professional maintenance within the specified period (with a grace period of no more than one month allowed), or if improper operations are carried out by unauthorized personnel, the company has the right to deem the original factory warranty service for this system automatically invalid.

Consequence: Once the warranty invalid, any subsequent system malfunctions will be the responsibility of the customer for all related testing, repair, and component replacement costs.

The defective parts or units replaced under a warranty claim become the properties of Solax, and must be returned to Solax or Authorized Cooperated Partners (distributors) for inspection with the original or equivalent packaging.

The product is not covered by warranty in the following cases:

- A. The product is out of the warranty period;
- B. Product failure is not reported to Solax within 4 weeks of appearance;
- C. Failed to comply with Solax installation manual or maintenance instructions for the inverter or accessory;
- D. Failed to comply with the safety rules and regulations in respect of the inverter or accessory;
- E. The inverter or accessory is damaged during transportation but the claimant has signed the delivery receipt (which requests the claimant to double check the outside & inside of the package and take pictures as evidence before signing the delivery receipt);
- F. The defect is caused by improper usage of the product or failure to comply with the usage of the product for purposes other than those for which the product was designed or intended;

- G. The product is moved for any reason after it has been installed (regardless of whether it has been reinstalled subsequently or moved back to the same location) unless it is reinstalled at the same address by a qualified installer who has provided a test report to Solax;
- H. The damage or defect is caused by lightning, flood, fire, power surge, corrosion, pest damage, actions of a third-party, or any other force majeure factors;
- I. The damage or defect is caused by embedded or external software or hardware (eg. the devices to control the inverters or the devices to control battery charging or discharging) from third parties without authorization (agreement in writing) from Solax;
- J. The product is modified or altered (including the cases in which the product series number or product label is altered, removed, or defaced);
- K. Flaws (eg. any external scratch or stain, or nature material wearing which does not represent a defect) that do not adversely affect the proper functioning of the inverter or accessory;
- L. Normal wear or tear;
- M. Travel and subsistence expenses as well as on-site installation, modification and normal maintenance costs;
- N. Duties, import/export fees or costs and other general administrative costs;
- O. Products purchased from nonofficial channels (eg. Not authorized distributors and their cooperated partners);

The substitute inverter or accessory with technical improvement may not be entirely compatible with the remaining components of the photovoltaic system. The costs incurred as a consequence will not be covered by the warranty or extended warranty.

Furthermore, all other costs including but not limited to compensation from direct or indirect damages arising from the defective device or other facilities of the PV system, or loss of power generated during the product downtime are not covered by this warranty. In any other case, whether in contract, tort, or otherwise, the maximum compensation for customer losses caused by its faults shall not exceed the amount paid by the customer for the purchase of the equipment.

11. Limitation of Liability

SOLAX SHALL NOT BE LIABLE FOR ANY CONSEQUENTIAL, INCIDENTAL, INDIRECTSPECIAL, EXEMPLARY OR PUNITIVE DAMAGES ARISING OUT OF OR RELATED TO THIS LIMITED WARRANTY, REGARDLESS OF THE FORM OF ACTION AND REGARDLESS OF WHETHER SOLAX HAS BEEN INFORMED OF, OR OTHERWISE MIGHT HAVE ANTICIPATED, THE POSSIBILITY OF SUCH DAMAGES. SOLAX'S LIABILITY ARISING OUT OF A CLAIM UNDER THIS LIMITED WARRANTY SHALL NOT EXCEED THE AMOUNT PAID BY CUSTOMER FOR THE PURCHASE. EXCEPT FOR THE WARRANTY PRODUCTS, THE CUSTOMER UNDERTAKES TO WAIVE COMPENSATION FOR ALL OTHER DIRECT OR INDIRECT DAMAGES.

12. Service after Warranty Expiration

For products which are out of warranty or invalidation, Solax provides an additional charge service, which includes the on-site service fee, materials fee, labor cost, and logistic fee:

- **On-site service fee:** Travel cost and time for the technician to deliver on-site services and the cost of labor time for the technician to install, analyse, repair, test and maintain faculty products;
- **Materials fee:** Cost of replacing the parts or units or any other relevant materials;
- **Logistic fee:** Cost of delivery, including the costs of sending the defective products from end users to Solax, or/and the costs of sending the repaired products from Solax to end users;

13. Assignment.

SolaX expressly reserves the right to novate or assign its rights and obligations under this Limited Warranty to a third party with the demonstrated expertise and requisite resources needed to effectively discharge the obligations hereunder. Customer may transfer this Limited Warranty to successors and assigns, this Limited Warranty will remain in effect for the time period remaining under the foregoing warranties.

14. Geographical Scope

This Limited Warranty terms and conditions only apply for the products which are originally purchased from Solax's authorized channels and installed in the destination defined (refer to Commercial Contract with Solax). For any units sold for one country/region but installed in another country/region, the warranty will become invalid if there is no written confirmation/approval from Solax prior to the installation.

15. MISCELLANEOUS

A. Severability

If any provision of this Limited Warranty is held by a court or other tribunal of competent jurisdiction to be invalid, void, or unenforceable, such provision shall be limited or eliminated to the minimum extent necessary and replaced with a valid provision that best embodies the intent of the parties so that this Limited Warranty shall remain in full force and effect. The invalidity or unenforceability of any provision of this Limited Warranty in any jurisdiction shall not affect its validity or enforceability in any other jurisdiction or the validity or enforceability of any other provision of this Limited Warranty.

B. Governing Law and Jurisdiction

This Limited Warranty shall be governed by and construed in accordance with the laws of P.R. China (excluding Hong Kong, Macao and Taiwan). Any controversy or claim arising out of or relating to this Limited Warranty or the breach thereof shall be settled in SHIAC (Shanghai International Arbitration Center) in accordance with the Arbitration Rules for the time being in force for arbitration. The Place of arbitration shall be Shanghai, P.R. China. The arbitration proceedings shall be conducted in English. The arbitral award shall be final and binding to the Parties. All costs of arbitration (including but not limited to arbitration fees, costs of arbitrators and legal fees and disbursements) shall be borne by the losing party unless otherwise determined by the arbitration tribunal.

Table: Product and Appearance

Product	Appearance
TRENE-P100B215 (Air-cooling)	 A tall, white, single-door inverter cabinet with a black base. It features a yellow warning triangle with the word 'DANGER' and a digital display on the right side. The SOLAX logo is visible at the top left.
TRENE-P125B261 (Liquid Cooling)	 A tall, white, single-door inverter cabinet with a black base, similar to the first model but with a slightly different internal layout visible through the door. It also features a yellow warning triangle with 'DANGER' and a digital display. The SOLAX logo is at the top left.
TRENE-P500B1044L	 A larger, white, double-door inverter cabinet with a black base. It has two yellow warning triangles with 'DANGER' and a digital display on the right door. The SOLAX logo is at the top left. The right side of the unit has a black and white striped pattern.
