DEYE Microinverter SUN

Quick Installation Guide

General information Offgridtec GmbH Im Gewerbepark 11 84307 Eggenfelden WEEE-Reg.-Nr.DE37551136 Contact information Tel: +49 8721 91994-00 Email: info@offgridtec.com web: www.offgridtec.com Christian & Martin Krannich Account Sparkasse Rottal-Inn Account: 10188985 BLZ: 74351430 IBAN: DE697435143000188985 BIC: BYLADEM1EGF (Eggenfelden)

Just read and follow the safety and installation instructions below. You can find and download the instructions or other technical documents on the manufacturer's website: www.offgridtec.com

Components

Installation and configuration

Install the microinverter and the PV module.

Screw the WiFi antenna to the microinverter.

Start up the microinverter by connecting the PV module and the AC connection cable.

The status LED signals the start-up of the microinverter.

- Start procedure: 3-fold fast red flashing intervals
- Test procedure: 2-fold slow red flashing intervals
- Feeding process: blue flashing intervals (slow = low output power / fast = high output power)

After the start-up and test procedure (about 15 seconds), the inverter starts feeding, provided that the PV module generates the start-up voltage of 20V required by the inverter (under load!).

2. monitoring device

1) Download and install the Solarman Smart smartphone app.

https://apps.apple.com/de/app/solarman-smart/id1469487897 Demo: https://www.solarman.cn/download/video/iOS_DemoVideo_AP_EN.MP4 https://play.google.com/store/apps/details?id=com.igen.xiaomaizhidian&hI=de&gI=US Demo: https://www.solarman.cn/download/video/Android_DemoVideo_AP_EN.mp4 **NOTE:**

All app permissions must be granted for proper function (notifications, Bluetooth, location services, etc.).

General information Offgridtec GmbH Im Gewerbepark 11 84307 Eggenfelden WEEE-Reg.-Nr.DE37551136 Contact information Tel: +49 8721 91994-00 Email: info@offgridtec.com web: www.offgridtec.com Christian & Martin Krannich Account Sparkasse Rottal-Inn Account: 10188985 BLZ: 74351430 IBAN: DE697435143000188985 BIC: BYLADEM1EGF (Eggenfelden)

2) Start the smartphone app and create a new profile by selecting "Register a new account".

App Store App Store SOLARMAN Smart E-mail E-mail E-mail	12:35 1/ ,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,	 3) Enter your email address and press the "Send" button under Verification Code. You will now find a message with a 6-digit code in your e-mail inbox. Enter this code in the app under "Verification Code". Then enter a password and click on "Done".
Password	Verification Code Send Verification Code Send Password Password Password at least 6 bits Done I have read and agreed toT&CsandPrivacy Policy	4) Now press the "Add Now" button and select "Yes" for the O&M request. Then click on "Create Plant By Myself".

No power plants Add Now	Dear owners, do you have an installer to do O&M in the later stage? (Yes) No	Dear owners, do you have an installer to do O&M in the later stage?

5) The Solarman Smart App will automatically detect your location. Then press the "Next" button.

General information Offgridtec GmbH Im Gewerbepark 11 84307 Eggenfelden WEEE-Reg.-Nr.DE37551136 Contact information Tel: +49 8721 91994-00 Email: info@offgridtec.com web: www.offgridtec.com Christian & Martin Krannich Account Sparkasse Rottal-Inn Account: 10188985 BLZ: 74351430 IBAN: DE697435143000188985 BIC: BYLADEM1EGF (Eggenfelden)

- 6) Now fill in all information of your PV system and press "Done":
 - Plant Name
 - Time Zone
 - Plant Type
 - System Type: PV plant type

-All on Grid: the generated power is fed directly into the public power grid.

-Self-consumption: the generated power is used by yourself and a surplus is fed into the public power grid.

-Storage System: the PV system can store the generated energy (batteries).

- Installed Capacity (kWp): Max. total capacity (Decimal numbers are indicated with a dot!)
- Operating Date: Installation date
- Currency:
- Unit Price (EUR/kWh): Savings / kWh of your energy supplier
- Total Cost (EUR): Assets Acquisition cost

The setup of your PV system in the Solarman Smart App is now complete.

7) Press the "Go to Add" button to add the WiFi interface (logger) of the inverter (not the serial number of the inverter!). The WiFi serial number can be entered manually or scanned with the smartphone camera.

10) The logger will be added to your PV system and after about 10 minutes the data will be displayed in the Solarman Smart App.

Note:

The illustrations of the monitoring device refer to the IOS version of the Solarman Smart App. The illustration may differ for the Android version.

If any of the steps listed cannot be completed successfully, exiting and relaunching the app may help. It may be necessary to exit the app and restart it. Please make sure you have a current version of your smartphone operating system to avoid possible compatibility problems.

Annex 1 - Disclaimer

The warranty does not apply under the following conditions:

- Damage is caused by improper use or an unsuitable environment.
- Damage is caused by improper use or an unsuitable environment.
- Damage due to exceeding the operating temperature.
- Arcing, fire, explosion and other accidents caused by failure to observe the destination or operating instructions.
- Disassemble and repair the inverter without authorization.
- Damage caused by force majeure.
- Damage caused by transport or handling.
- Consequential damage due to connected devices

Changes without prior notice! Version No. V1
